- **Service** - Unlike other online gold and silver dealers, we are not trying to merely sell you commodities and end our contact with you. We know that the market is always changing, and we are here to answer your questions and advise you every step of the way.
- **Education** - We take pride in our ability to educate our customers before they choose which metals to purchase. In addition to our variety of online articles, and weekly newsletter, we have written several ebooks that we offer FREE of charge.

PAMP Suisse was founded in 1977, after most countries had abandoned their gold standard. Yet, in Switzerland, the gold standard was still being used until 1999. Even now, whenever bank crises come along, gold maintains its values while other assets plummet.

When you are purchasing a bar weighed in grams, you need to convert that number to ounces to check your bar's value according to the spot price of gold. In the case of a 1 gram bar, that number is 0.03215 troy ounces. The premiums you pay for the PAMP Suisse 1 gram gold bar are relatively low above the spot price of gold.

## 1 GRAM GOLD BAR - LADY FORTUNA VERISCAN (IN ASSAY)

### PRECIOUS BEAUTY

The PAMP Suisse Lady Fortuna shines brilliantly from its sealed packaging to delight the eyes and inspire a feeling of confidence and security. The obverse of this 1 gram gold bullion bar features the image of Lady Fortuna, the Roman goddess of beauty and fortune. On the reverse, the PAMP Suisse logo, which has become a new symbol of prosperity, appears along with the weight, purity and a unique serial number.

This bar is presented in Assay, indicating that it has been scientifically tested for purity and precisely weighed to guarantee it meets the exact specifications of 1 gram of .9999 fine gold. The included assay card is tamper-evident to further ensure its authenticity.

PAMP Suisse uses its exclusive Veriscan technology to take a "fingerprint" of the bar by scanning its microscopic topography. When the bars are made, they are immediately scanned, and the resulting data is entered into the Veriscan database. Then, when the customer wants to verify authenticity of the bar, it can be checked against this database for verification.

PAMP Suisse is a world-leading independent refiner, known for its quality, reliability and of course, its unique Veriscan system. The refiner's 1 gram gold bar offers a unique opportunity for beginning and experienced investors alike to build and diversify their precious metals holdings.
